

TURN THAT CHAINSAW OFF MATE

WE'VE GOT SOMETHING FOR YOU!

ThinkSafeTM
For Better Workplaces.

Let's be honest, we don't know how to harvest a forest and if you put one of our ThinkSafe Agents in your forestry crews, they'd be as green as the trees.

But we know health and safety, that's why partnering with us is like employing your own health and safety manager. ThinkSafe APPs are the most efficient, easy-to-use, powerful, offline-capable and versatile Health and Safety APPs on the market. We are confident there's no better product on the market and nothing better for your bottom line.

In the Forest

- Easier than smoko on a Friday to use
- Fast, so you can get back to the mahi ASAP
- No wifi in the bush? – our APPs are wireless
- Keeps your data safe
- APProved Codes of Practice and Safe Tree Tailgate Resources, SOPs, policies - all your company docs in the palm of your hand
- Real time notifications of high risk hazards and incidents
- Fit for purpose, made for the forest, for forestry workers

In the Office

- 24/7 incident support from our qualified safety experts
- Your ThinkSafe Sharefile is a secure, online platform that contains your Health and Safety Management System, based on the Safetree Contractor Certification
- Download, upload and store documents on your custom online portal
- Free online H&S training for the whole team, big or small
- We will even monitor your incident and hazard reports and provide a quarterly H&S activity report with insights from the ThinkSafe health and safety experts
- Custom APPs to suit your crews
- Check onsite health and safety in real time
- Task dispatching from the office to your crews' phones
